## CAPTAIN AMERICA SHIELD

Thank you for downloading this resource!

### PAPER CHOICE

Although this resource may print on any type of paper thickness I would recommend a heavyweight white matte photo paper or cardstock. The resource is formatted to papersize U.S. Letter (8.5 x 11 inches) but can also print perfectly on A4 (21.0 x 29.7cm or 8.27 x 11.69 in).

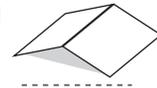

### INSTRUCTIONS

#### 1. PRINT AND CUT OUT THE INDIVIDUAL BOXES

Print out as many copies of the template as you need and cut them out. Note the different numbered parts for later reference.

#### 2. FOLD AND GLUE BOX

For a clean and straight line along the folds. Make a score along the dashed lines with a butter knife or something similar and a ruler. Next make a mountain fold along all the dashed lines.

Mountain fold

#### ASSEMBLE SHIELD

Put some glue on the backside of the tabs marked with a **G** and glue them on the backside of the shield. Make you fold the tabs so there is a little tab left on the edges for the shield's edge to fasten on (see figure 1.). Put some glue on the backside of shape 3 and glue to the edge of the shield.

#### ASSEMBLE SHIELD STAND

Put some glue on the tabs marked with a **G** and glue them to the corresponding sides so that you end up with a shape that looks like figure 2.

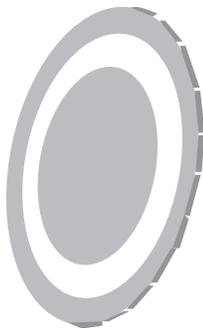

figure 1.
