

PAPERCRAFTS | PRINTS | AND MORE

HAPPY BIRTHDAY CAKE

Thank you for downloading this resource!

PAPER CHOICE

Although this resource may print on any type of paper thickness I would recommend a heavyweight white matte photo paper or cardstock. The resource is formatted to papersize U.S. Letter (8.5 x 11 inches) but can also print perfectly on A4 (21.0 x 29.7cm or 8.27 x 11.69 in).

INSTRUCTIONS

1. PRINT AND CUT OUT THE INDIVIDUAL INVITATIONS

Open the file in the software program **Adobe Reader**. If you don't have the program installed or need to update a previous version you can do so for free and easy at: <http://adobe.com/go/reader>
Print all the individual parts and cut them out.

2. FOLD AND GLUE TOGETHER

Start by folding all the tabs of the shape marked as part 1 inwards. Then fold part 1 and glue the end tab (marked with a G) so it forms a cylindrical shape. Now put glue on the tabs of the top part of the cylindrical shape and glue part 2 to the top of part 1.

TIP/OPTIONAL

Before you glue the cake to the plate/part 3 you could fill it with some small candy or other small surprise.

Glue the tabs on the bottom of the cake and glue it to part 3, place it in the center of the white circle.

Glue the opposite sides of the tabs and backside of part 4. Lastl glue part 4 to the top of the cake. All done, now you have yourself a happy birthday cake.

TERMS OF USE:

The resource provided here is for YOUR PERSONAL USE only. Feel free to print it as many times as you like. Please do not forward the resource to your friends or family - refer them to my website. Commercial use and mass production are not allowed. You cannot resell this file or the finished products.
